For Immediate Release

Torqueleader brand unveiled in Canada through industry powerhouse

San Jose, Calif., – Mountz Torque Tools Canada Inc. has been appointed exclusive distributor in Canada for Torqueleader torque tools. Torqueleader®™ is the registered brand name and trademark of MHH Engineering Company Limited located in Surrey, United Kingdom. Mountz – the torque tool specialist®™ is a registered brand and trademark of Mountz, Inc. headquartered in San Jose, California.

“The association of the MHH and Mountz organizations is one that spans nearly a half century,” commented Geoff Allen, Managing Director of MHH Engineering, a manufacturing firm with over 70 years of experience making precision torque tools. “Mountz is a premier sales company in the field of torque control products and their decision to open in Canada is good news for industrial customers seeking quality torque tools, professional service and support.”

Torqueleader tools can be found on the website www.torqueleader.com. Specializing in torque tools for industrial applications, Torqueleader tools are world renowned for their craftsmanship and high quality. Torqueleader’s customer list is a who’s who of famous and successful manufacturers, including: GE, FORD, Sony, Samsung, General Motors, Raytheon, Boeing, Harris, Siemens, Audi, Fiat, Rolls Royce, Northern Telecom, IBM and many more.

Torque tools are used for precision tightening and verification of fasteners (screws, nuts or bolts) or tools used to tighten fasteners. Proper torque ensures that joined parts stay together and withstand load, vibration and other industrial punishment.

Mountz (www.etorque.com) is a specialized sales and manufacturing company that supplies torque product internationally to over 5000 customers. Mountz’s short-term plan in Canada includes an office in Ontario and British Columbia Provinces, a trained sub distributor network, national torque education seminars and a staff of sales engineers. Mountz Torque Tools Canada

will support customers with an accredited calibration and repair laboratory.

“The expansion into Canada gives Mountz independent companies in each of the 3 NAFTA countries,” stated Brad Mountz, CEO of the Mountz, Inc. “Our efforts in the US began 42 years ago. Since then we’ve become the dominant source for torque tools in the USA and Mexico. Expansion to Canada became possible this year and we are eager to serve the Canadian customers that make up an important part of the NAFTA economy.”

Mountz Inc. is a privately held company, owned by Mountz employees. MHH Engineering Company is a group member of the Gedore Tool Group of Ramscheid, Germany.

About Mountz, Inc.

San Jose, California based Mountz Inc. produces a wide variety of torque tools, including torque analyzers, torque testers, torque sensors, torque wrenches, electric screwdrivers, torque screwdrivers, torque multipliers, assembly tools, screw counters, balancers and special torque applications.
